**SAFETY
REBOOT**

What is Safety Reboot?

The CEF's Safety Reboot initiative is running throughout January 2024

The aim is to refocus on key areas of health and safety

Stop what you are doing, gather with colleagues in groups

Take 15 minutes to discuss the chosen topic using the following questions as a guide

Share your pictures on social media #safetyreboot2024

Slips, Trips & Falls: Introduction

- Over the next few weeks we will be holding a weekly safety talk as part of the CEF Safety Reboot for 2023.
- This talk is focused on the risk of slips, trips & falls.
- Instead of a normal toolbox talk and asking you to listen, we want you to interact and chat about this among the team here.
- Discuss the actions and behaviours that are key in our working environments on a daily basis to avoid accidents.

Do you know the main causes of slips, trips and falls?

Do you know the
difference between
a slip and a trip?

How can everyone contribute to reducing slips and trips on site?

How would the management of waste on site contribute to reducing the risks from slips, trips and falls?

Which PPE are the most important on site as part of trip and fall prevention?

Are you familiar
with the procedure
for dealing with
spillages?

What basics of housekeeping on site would you say are the best way to prevent slips, trips and falls?

Should all slips, trips & falls be reported even when no-one is hurt (no victim accident)?

What measures should be in place at height and low level to prevent and protect against slips, trips & falls?

Do same level falls
tend to occur more
frequently than
elevated falls?

Thanks for
getting
involved.

Remember to
use what you
have learned
today
